Statements give us an opportunity to affect policy and spread our good examples

– City authorities are key players in customising education and vocational training to the needs of young people to improve their employability and positioning in the labour market. This is done by developing tailored education and training pathways and by providing support to young people before and during the training period.

The Capital of Scandinavia

Transfer of good practice

Inspired by what I had seen colleagues in Rotterdam achieve, we've now got agreements with contractors about job opportunities for the unemployed in Stockholm.
